

11APMV1 - Stacked Pebble, Antique White

With our Stacked Pebble, we've literally turned convention on its side. Instead of using the flat face of stone, we stack this pebble range with a side profile to create a unique contemporary look. So if you like your world horizontal - with uniform lines and varying heights - our Stacked pebble tile could be the perfect fit for water features, large area walls and a host of other indoor and outdoor applications.
