

# 13AMBI5 - Large Random Tile, Beige Marble

The name says it all. They're large and the shape is random...but when these stones are interlocked, the effect is stunning and unique. Give your project a custom effect, without any compromise on quality. This robust performer is great for larger areas inside or out, on floors and on walls...where our 'low-grout' solution accentuates the stone and really provides the wow-factor. Each stone has been hand laid on mesh sheets to ensure each tile interlocks perfectly with the next, and they have been calibrated to be smooth and level underfoot.
