

# 21AWPCR7 - V-Tile™ II, Tropical White

The V-Tile™ II adds a new dimension to the ever-popular V-Tile™ range. The solid stone wedge-shaped V-Tile™ II is slightly longer than the V-Tile™, but equally versatile and dramatic in its visual impact, thanks to its unique properties. As its name suggests, this range is shaped like a single wedge...and the structure creates a stunning 3D effect on any wall. It is one of the most versatile of all our products, unmeshed for ultimate design and installation flexibility, and visually dramatic with subtle colour highlights and a natural surface texture.
