

23BQCCR1 - Rustic Cladding - Copper Quartz

With its riven surface, the Rustic Cladding interlocking system offers a relief pattern using a mesh-mounted narrow version of the V-Tile™ wedge design. When combined with its subtle colour variations, this makes this range perfectly suited to any part of any wall. Various stacking arrangements are available - either horizontal or vertical - each creating a unique pattern, while the easy grout-free installation confirms the appearance of a 'woven' wall.
